HYPERTECH V3 SUIT FIA

AUTO RACING

SIZE: 44 - 60

The Hypertech v3 Suit is a super lightweight and breathable two-layer suit with an athletic fit, designed and developed for drivers looking for professional levels of racing performance. With improved protection, the Hypertech v3's outer shell is constructed from an aramidic Nomex® anti-static outer shell that provides optimal heat and flame resistance, while maintaining the lightest possible weight. The suit has an all-new soft, innovative aramidic knit lining for comfort and protection. In addition, the suit has thin, superlight, Nomex® stretch panels strategically placed on the lumber area, elbows, knees, and crotch, and designed to offer premium comfort in the driving position. The Formula 1-derived stretch panels provide excellent levels of flexibility and freedom of movement in all the key areas that require mobility. The Hypertech v3 has an innovative cuff construction providing a slimmer fit at the wrist and forearm.

Improved protection whilst maintaining ultra-light weight and breathability.

All new soft knit lining for comfort and protection.

Innovative cuff construction for slimmer fit at wrist.

Alpinestars most advanced suit designed to offer improved protection, ultra-light-weight, and optimal breathability.

Advanced dual-layer construction assembly for lowest weight, optimized performance, and breathability.

All-new, innovative soft lining material technology ensures breathability and comfort.

Anatomically engineered, pre-curved arms and legs provide an enhanced fit for an optimum position while driving.

Formula 1-derived, super-light Nomex® stretch panels strategically positioned on lumbar area, elbows, knees, and crotch.

Alpinestars' all-new extraction handle design from Formula 1 provides an effective safety feature for the extraction of the driver in the event of a crash.

New, innovative knitted cuff construction for reduced weight and maximum comfort.

Flat seam construction for reduced pressure points and improve strength.

Nomex® anti-static outer shell fabric offers exceptional heat and flame-resistant properties.

Speciably designed soft collar incorporates leather details, knit fabric and secure hook and loop closure.

Printed logos help maintain the suit's material integrity and reduce overall weight.

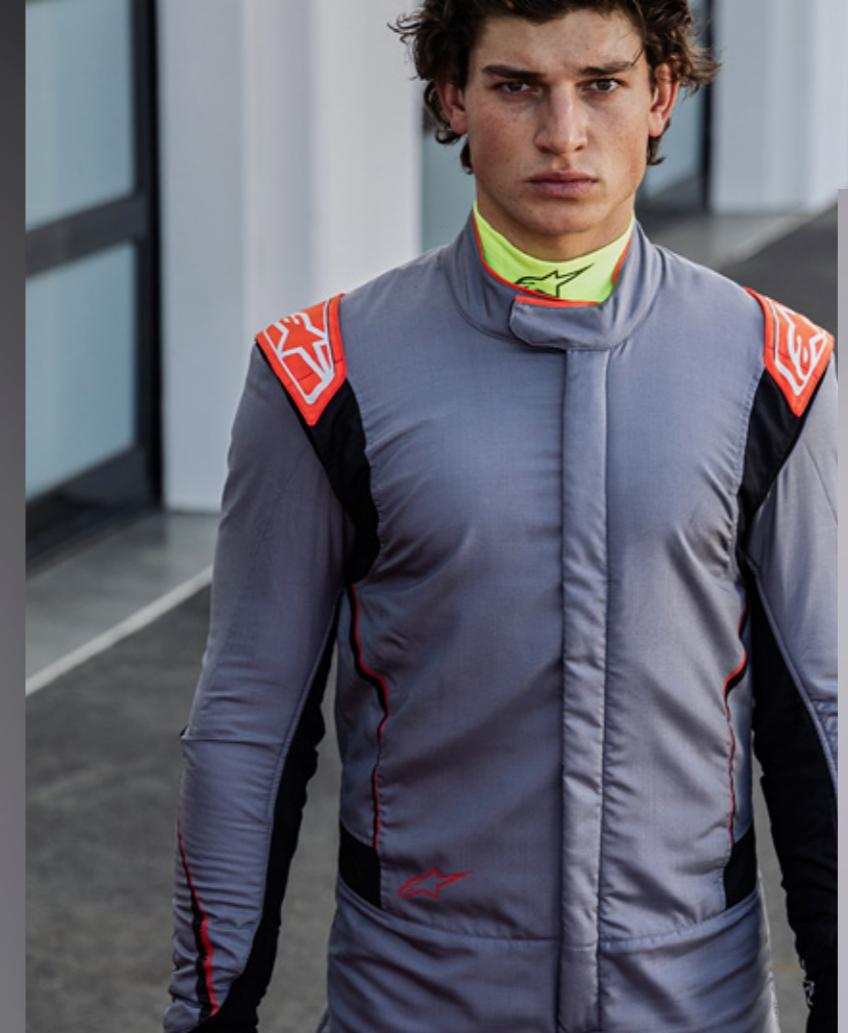

Premium YKK metal zipper with Alpinestars zipper pullers, plus double slider for a versatile and customizable fit.

Athletic-Slim fit design.

Sold with laundry bag for convenience and to protect the material fibers of the suit.

GP TECH V4 SUIT

AUTO RACING

SIZE: 44 - 64

The GP Tech v4 Suit features an outer shell twill material developed exclusively for Alpinestars which is combined with an innovative, aramidic base knit lining for optimum levels of comfort, protection, and lightweight. Ventilation levels are further enhanced by the breathable panels on the sides of the suit. The GP Tech v4 also incorporates lightweight stretchable panels on the lower back, elbows, crotch, and knees to provide drivers with greater levels of flexibility and freedom of movement both in and out of the car.

Improved protection whilst increasing breathability and maintaining low weight.

New breathable 3D Nomex® fabric provides the suit with more airflow and ventilation.

Elastic waist construction for true belt cinch fit.

New advanced three-layer, super-lightweight construction assembly for breathability, maximum comfort, and effective regulation of body temperature.

Anatomically engineered, pre-curved arms and legs provide an enhanced fit and an optimum position while driving.

Formula 1-derived, super-light Nomex® stretch panels strategically positioned on the lumbar area, elbows, knees, and crotch provide enhanced flexibility.

New, enhanced breathability areas on torso, sides, and under arms, for improved ventilation.

Alpinestars' all-new extraction handle design from Formula 1 provides an effective safety feature for the extraction of the driver in the event of a crash.

Lightweight knitted cuffs for reduced weight and maximum comfort.

Soft collar with knit fabric and secure hook and loop closure for improved comfort.

Elastic waist construction for belt cinch fit.

Printed logos help maintain suit's material integrity and reduce weight.

Premium YKK metal zipper with Alpinestars zipper pullers, plus double slider for a versatile and customizable fit.

Thigh pockets for convenient, unobtrusive storage.

Athletic-Regular fit design.

Sold with laundry bag for convenience and to protect the material fibers of the suit.

GP PRO COMP V2 SUIT

AUTO RACING

SIZE: 44 - 66; (COLOR 31 SIZE 44 - 64)

The GP Pro Comp v2 features an outer shell plain material developed exclusively for Alpinestars which is combined with a soft aramidic base knit lining for optimum levels of comfort, protection, light weight and comfort. Thanks to the introduction of the aramidic base lining with an open weave structure, this suit delivers enhanced levels of breathability, and this is reinforced even further by the strategically-positioned stretchable open mesh panels on the back, crotch and armhole for additional airflow and flexibility, both in and out of the car.

Certified to the new FIA 8856-2018 homologation standard certification.

Lightweight and breathable multi-layer suit incorporating mesh stretchable panels for maximum comfort and effective body temperature regulation.

Formula 1-derived cable opening for cooling vest system or communications on the left of the body, covered by a self-closing flap to ensure maximum levels of protection.

Strategically positioned Formula 1-derived stretch mesh panels on the lower back and crotch for enhanced flexibility, both in and out of the car.

Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.

100% aramidic anti-static outershell fabric for exceptional heat and flame-resistant properties.

Ribbed wrist and ankle cuffs for maximum comfort and reduced weight.

Tall ribbed collar for extended coverage of the neck and improved driver comfort.

Alpinestars exclusive shoulder epaulette construction provides an effective feature for the extraction of the driver in the event of a crash. Opening for cable for cooling vest system or communications on the left of the body, covered by a self-closing flap to ensure maximum levels of protection.

Premium YKK metal zipper for durability.

Double slider on front for a versatile and customizable fit.

Thigh pockets for convenient, unobtrusive storage.

ALPINESTARS PROTECTS slogan on the lower back of the lining; the same design as used on Alpinestars F1 racing suits

Comes with a laundry bag for convenience and effective material fiber protection.

Athletic-Regular fit design.

GP RACE V3 SUIT FIA

NEW ITEM

AUTO RACING

SIZE: 44 - 66

DESCRIPTION

The GP RACE V3 Suit has a two-layer construction with a soft knitted liner for optimum levels of protection, and driver comfort. With a twill outershell and aramid lining for comfort and breathability, this suit is also equipped with a fully floating arm construction, pre-curved arms and legs, and stretch panels on crotch and lumbar areas for an optimized fit.

KEY FEATURES

Two-layer suit incorporating knitted stretchable panels for maximum comfort and excellent breathability.
Alpinestars fully floating arm construction with stretchable knit insert ensures minimal material resistance when driving.
Aramidic knitted stretchable panels on the back waists and crotch for enhanced comfort and ease of movement.
Ergonomic soft collar for maximum driver comfort.
100% Aramidic outershell fabric for exceptional heat and flame-resistant properties.
Adjustable belted waist ensures a precise fit.
Anatomical arm, leg and torso patterned paneling for optimum fit in the driving position.
Alpinestars epaulette construction provides effective feature for the extraction of the driver in the event of a crash.
Ribbed wrist and ankle cuffs for maximum comfort and reduced weight.
Premium metal double-sided zipper, personalized for a versatile and customizable fit.
Regular Fit design.

TECH-1 ZX V4 GLOVES

AUTO RACING

SIZE: S - 2XL

Alpinestars is always looking for new ways to improve driver safety and increase protection. The new generation of Tech-1 ZX V4 auto Gloves provide nearly a 20% improvement in heat transmission. This has been achieved while still offering the exceptional combination of fit, feel, and grip for which Alpinestars' auto-racing gloves are known.

Developed with leading drivers in F1 and Endurance, the TECH-1 ZX V4 Gloves offer exceptional protection and optimal temperature control, while significantly improving breathability thanks to the gloves' dual-sided honeycomb fabric construction.

A 3D silicone print palm provides excellent levels of grip from reduced print surface, offering the gloves even more feel. The TECH-1 ZX V4's pre-curved shape has been increased from the previous version, resulting in better fit and less material bunching when holding the wheel.

Advanced and breathable the TECH-1 ZX V4's flame-resistant honeycomb main assembly made from aramidic fiber and with a bonded aramidic lining ensure for optimal temperature control and maximum comfort and feel.

External seams prevent pressure points and provide superior comfort to the driver. Pre-curved fingers and palm help improve fit and reduce fatigue while driving.

Outer grip zones for superb control and feel of the cockpit's controls.

Ergonomically designed 3D grip technology on palm and fingers with strategically positioned silicone surface patterning for improved flexibility and control.

Touchscreen compatible.

Certified to the updated FIA 8856-2018 and SFI 3.3 homologation standards.

TECH-1 START V4 GLOVES

AUTO RACING

SIZE: S - 2XL

Designed with a single upper panel and innovative finger construction, the Tech-1 Start V4 Gloves have been engineered to reduce the excess material in the fingers, as well as the overall total weight of the glove.

Seamless design and innovative finger construction to reduce excess material and total weight.

The box cut fingertip construction offers a seamless no-fourchettes design on the ring and middle fingers, resulting in a glove which is anatomically optimized for a confined cockpit.

Pre-curved fingers and palm for improved fit and reduced fatigue.

Ergonomically positioned extended, silicon printed fingers and full palms for improved grip and feel.

Close-fitting, extended cuff length for maximum protection against fire and heat and with an elasticated wrist for easy entry and a secure fit.

Certified to the updated FIA 8856-2018 homologation standard.

TECH-M V2 GLOVES

AUTO RACING

SIZE: S - 3XL

DESCRIPTION

Designed and developed specifically for pit-crew needs, these gloves offer the most advanced impact protection for wheel gun use during tire changes.

KEY FEATURES

Bonded flame-resistant aramid fiber main construction for optimized levels of performance, comfort and improved safety.

Silicone FRR coated patches which incorporate impact absorbing foams on knuckle and fingers.

Silicone FRR Kevlar reinforced aramid fiber patch on thumb-second finger area for a great abrasion resistance performance.

Strategically positioned textured leather palm patches for optimized level of grip, abrasion resistance and shock absorption when using a wheel gun.

Pre-curved fingers and palm design aids fit while reducing material bunching when gripping the wheel guns and other pit crew tools.

Alpinestars cuff opening design incorporates 180° elasticated wrist for secure tight fit and a silicone tab for ease to take off the glove.

Fully embroidered graphic offers a high and durable design.

ZX EVO V3 TOP L/S FIA/SFI

TECH LAYERS

SIZE: XS/S - M/L - XL/XXL

DESCRIPTION

Alpinestars ZX EVO V3 Long Sleeve Top is constructed with LENZING™ FR, an innovative, sustainably produced viscose fiber that provides exceptional flame resistance and protection against heat transfer.

This Formula 1 specification underwear is extremely lightweight and thin, and designed to be incredibly soft to the touch, offering greatly enhanced comfort when wearing a driving suit.

KEY FEATURES

The ZX EVO V3, F1-specification top is constructed using an innovative flame-resistant technology developed by Alpinestars.

LENZING™ FR is a special natural cellulosic fiber with unique thermal insulation and permanent flame resistance properties that help prevent heat stress and heat stroke.

The ZX EVO V3 Top offers increased breathability and improved fit whilst maintaining ultra-light weight.

Designed to provide a better soft to the touch feel for improved driver comfort.

Top has reduced collar seams for less pressure points.

CONSTRUCTION

All new jacquard mesh, diamond construction, significantly increases breathability whilst improving stretch fit and maintaining ultra-light weight.

Advanced construction for lowest weight, optimized performance, and overall breathability.

Lenzing™ FR fiber, combined with the fabric's internal structure, helps wick away moisture from the skin and keep the driver cooler for longer.

Lightweight and seamless tubular torso construction with revised pattern for optimal fit and maximum driving comfort.

PROTECTION

Certified to FIA 8856-2018 & SFI 3.3 homologation standards.

AUTO FOOTWEAR

SUPERTECH SHOES

AUTO RACING

SIZE: EUR 39-47 / US 7-13

DESCRIPTION

The Supertech Shoe boasts a new, fully knitted upper construction which is designed to deliver the closest and most comfortable fit, adapting to the morphology of the feet even more, and resulting in improved comfort in the cockpit and reduced driver fatigue. The ultra-lightweight Supertech Shoes feature a full carbon heel cup for a secure heel lockdown and holding the foot firmly in place. The shoes have a 3D printed midsole, manufactured using Digital Light Synthesis, this allows increased cushioning in key areas, softer under the heel bone, but stiffer at the edges for maximum stability. The memory foam heel padding reduces vibrations from being transmitted to the heel and reduces discomfort, whilst the ultra-thin rubber outsole gives the driving feel required for maximum performance.

KEY FEATURES

Ultra-lightweight, knitted upper offers superior driver comfort in forefoot.

Thermo-formed carbon heel cup provides secure heel lockdown.

3D printed midsole offers premium soft cushioning, whilst retaining maximum stability.

CONSTRUCTION

Ultra-lightweight racing shoe featuring a fully knitted fire retardant upper, made from a blend of aramidic fibers to offer drivers unsurpassed comfort, and breathability, as well as a precise and secure fit around the foot.

Engineered stretch tongue zone and ankle collar area for optimum fit, with rear pull tab for ease of entry while putting on the shoe.

Upper overlay skin for durability and support while providing flex points for comfort when walking.

Thermo-formed carbon fiber heel cup provides

secure heel lockdown.

3D printed midsole allows for multi density cushioning, softer under the heel bone but stiffer at the edges for maximum stability.

Redesigned F1-derived ultra-thin rubber outsole delivers greater feel, improved sensitivity with the pedals, and optimum levels of grip.

The textured rubber outer sole has an asymmetric tread and is water repelling and oil resistant to offer high levels of grip.

Lightweight memory padding around the heel reduces vibrations being transmitted to the heel bone, while the seamless Achilles zone construction provides enhanced driver comfort.

Lightweight flat lacing ensures secure fit and reduces pressure points.

PROTECTION

Certified to FIA 8856-2018 and SFI 3.3 homologation standard.

TECH-1 Z v3 SHOES

AUTO RACING

SIZE: EUR 37-47 / US 5-13

The lightweight Tech-1 Z V3 Shoe has a contoured shape and is proportioned to better adapt to the morphology of the feet even more, resulting in improved comfort in the cockpit and reduced driver fatigue. The shoes have an ergonomic foot bed to ensure the foot maintains a natural, comfortable posture while also allowing maximum flexibility, support, and free foot movement. Soft and supple kangaroo leather upper offers superior comfort in forefoot. Thermo-formed heel cup provides secure heel lockdown.

New knitted stretch tongue and heel pull tab for ease of entry while putting shoe on. Main upper is constructed from soft and supple kangaroo leather for exceptional levels of comfort and durability in the forefoot. Elastic fireproof collar and tongue for weight saving and comfort and enhanced fit. Dual closure, speed lacing system for a personalized

fit, and secure closure. Flat wire support system for increased comfort. The wire system utilizes high-tensile, aramidic fibers to ensure a precise and secure fit of the shoe around the foot. The Lace Lock System ensures the shoe remains in position. Extensive perforation zones on lateral and medial sides, heel, and toe for enhanced breathability and comfort. New knitted stretch tongue and heel pull tab for ease of entry while putting on the shoe, offering a precise fit. Perforated inner tongue padding for improved comfort and breathability. Para-aramidic fiber tubular lining construction for excellent heat-resistance, weight savings, and strength properties. Thermo-formed heel cup provides secure heel lockdown, with its integrated fireproof PU heel for

additional protection. Seamless Achilles zone construction for enhanced driver comfort. Lightweight micro-porous padding around the heel and footbed for enhanced driver comfort. Alpinestars one-piece toe and heel counter features a multi-compound construction, an integrated insole, and an ergonomic polypropylene heel counter for maximum support, stability, and protection. F1-derived thin rubber outer sole delivers greater feel, improved sensitivity with the pedals, and optimum levels of grip. The textured rubber outer sole has an asymmetric tread and is water repelling and oil resistant to offer high levels grip. All graphic detailing on the leather features transfer technology for weight saving and improved performance. Certified to the FIA 8856-2018 homologation standard.

TECH-1 T V3 SHOES

AUTO RACING

SIZE: EUR 37-47 / US 5-13

The Tech-1 T v3 Shoes offer drivers optimum levels of comfort, fit, and feel. Featuring a full bovine leather construction, the shoe boasts a cut away section at the heel to allow movement while operating the pedals with no pressure points while driving. Every aspect of the shoe has been carefully considered to keep weight as low as possible; the hook and loop strap is a single layer for added lightness, while also ensuring there is no pressure point on the instep, and the classic lace closure system features hidden loops on the lateral and medial to guarantee a snug but unrestrictive fit. The all-new rubber sole, which mimics an asymmetric tire tread, is water repelling and oil resistant to offer high levels of grip and thicker for enhanced levels of comfort in and out of the car, while the mid sole offers reassuring levels of cushioning. Other neat touches include an outer toe protector for comfort and durability, and a Nomex® lining to protect the entire foot against heat.

Main upper material made by full grain bovine leather for the optimum blend of mechanical resistance and driver comfort. Equipped with a rear elastic fireproof collar for light weight and enhanced driver comfort. Strategically-positioned perforation zones on the lateral and medial sides for maximum breathability and airflow. Perforated tongue padding for high levels of comfort and breathability. Engineered protection with dedicated lateral and medial toe protectors. The dual closure system incorporates an adjustable hook and loop strap plus a traditional lace and a hidden loop system for enhanced durability, as well as a more personalized fit and a secure closure. Para-aramidic fiber tubular lining construction for excellent heat-resistance, weight saving and strength. Rear pullers for easy entry and a precise fit.

SP + SHOES

AUTO RACING

SIZE: EUR 37-47 / US 5-13

The SP+ Shoe brings F1-derived features to a lower price point with a mix of leather and suede construction for softness with durability where required. The rubber outsole mimics an asymmetric tire tread and is water repelling and oil resistant to offer high levels of grip. Main upper material made with a combination of suede and full grain bovine. Achilles zone construction in a soft cushioned knit for enhanced driver comfort.

Dual closure system incorporates an adjustable hook and loop strap plus a traditional lace and hidden loop system for a more personalized fit and secure closure. Strategically positioned perforation zones on the lateral and medial sides, and perforated tongue padding, for enhanced breathability and comfort. Para-aramidic tubular lining construction for excellent heat-resistance and comfort.

Collar and tongue padding made from nitrile rubber for comfort and lightness. Thin rubber outsole, derived from Formula 1's Race Program, delivers unsurpassed levels of feel and sensitivity with the pedals, while the textured pattern ensures optimum levels of grip. Certified to FIA 8856-2018 homologation standard.

SP v3 SHOES

NEW ITEM

AUTO RACING

SIZE: EUR 37-47 / US 5-13

KEY FEATURES

The SP V3 Shoe is an evolved design featuring Alpinestars' anatomically profiled shoe and exclusive racing specification sole with special line textured grip and improved pedal feel.

Construction is from fireproof materials and components throughout, offering superior driver protection.

Alpinestars logos and branding are updated for a

more modern look.

PROTECTION

Certified to SFI 3.3 homologation standard.

RADAR v2 SHOES FIA/SFI

NEW ITEM

AUTO RACING

SIZE: EUR 37-50 / US 5-15

DESCRIPTION

The new Radar V2 Shoes have been specifically designed and developed with leading professional pit crews in F1, NASCAR and IndyCar to create the ideal crew shoe for all pit environments. With a reinforced heel and toe box, fireproof aramidic lining, perforation zones and Alpinestars' exclusive rubber compound sole for grip and support – ideal for fast pit stops and long days in the garage.

KEY FEATURES

Main upper constructed from leather with protective print on heel, ankle and toe areas for durability and protection. Fireproof fabric ensures comfort, safety, and complete foot protection.

Dual closure system incorporates adjustable hook and loop strap grip plus a mix of hidden loop and traditional eyelet lacing system for a personalized fit and a secure closure.

Strategically placed perforated zones for cooling performance and maximized airflow. Collar padding constructed from Nitrile rubber for comfort and weight-saving.

Tongue features perforated soft padding for comfort and improved fit. Collar cut lower at the rear to allow for greater Achilles' heel comfort and improved range of movement. TPR strap and ankle support improves comfort and

support when kneeling and moving quickly during pitstops.

Ergonomic heel counter features compound construction which provides support and stability.

Alpinestars' exclusive rubber compound sole wraps around the toe for maximum durability and a seamless transition to the asphalt during all phases of a pit stop. Mid-sole cushioning provides comfort, support and stability.

PROTECTION

Certified to FIA 8856-2018 & SFI 3.3 homologation standards.

KMX-5 V3 SUIT

KARTING

SIZE: 40 - 60

The KMX-5 V3 Suit was designed and developed to maximize breathability of the suit while also reducing the weight. Exclusive, all-new outer shell material developed made from a blend of polyester and polyamide and combined with soft knit lining for optimum levels of protection, light weight, and comfort. Innovative circular, laser cut perforations on the upper chest and back, with open weave mesh on the torso sides, crotch, and on the armholes, provide maximum airflow for cooling. The KMX-5 V3 Suit will keep you cool when the temperature goes up, both in and out of the kart.

Exclusive outer shell material, combined with soft knit lining for optimum levels of protection, light weight, and comfort.

Strategically positioned tech mesh panels for effective regulation of body temperature.

Anatomically designed arms, legs, and torso paneling to provide the optimum position while driving.

Advanced dual-layer construction assembly for optimized performance, improved breathability, and weight savings.

Innovative laser perforations on the upper chest and back for maximum airflow and increased breathability.

Strategically positioned tech mesh panels on the underarms, sides of the torso, and crotch, for effective regulation of body temperature and premium ventilation.

Durable reinforced panels in the seat bolt area which has also been optimized for minimal material bunching.

Anatomically engineered, pre-curved arms and legs provide an enhanced fit and an optimum position while driving.

Anatomical arm, leg, and torso paneling is patterned to create the optimum position while driving.

Features Alpinestars new, Formula 1-derived extraction handle design and a fully floating arm.

New, lightweight knitted wrist and ankle cuffs for maximum comfort and reduced weight.

Premium YKK metal zipper, plus double slider for a versatile and customizable fit.

Thigh pockets for convenient, unobtrusive storage.

Athletic-Regular fit design.

Certified to the NEW FIA 8877-2022 Grade 1 homologation standard.

TECH KX TOP

TECHNICAL UNDERWEAR

SIZE: S - XL

DESCRIPTION

Alpinestars innovative Karting base layer, the Tech KX Top is designed for superior kart driving performance, featuring an extremely lightweight, thin stretch, and highly breathable stretch mesh in key areas. The Tech KX Top's ergonomic cuts, designed to enhance body movement on the track, provide optimum levels of flexibility, freedom of movement, ventilation, and comfort.

KEY FEATURES

Ultra-light weight, and offering maximum breathability and ventilation, the Tech KX Top has superior moisture wicking performance. Designed with flat seams and welded hems for less pressure points.

CONSTRUCTION

A premium athletic performance base layer, the Tech KX Top features an ergonomic cut and optimized pattern for enhanced freedom of movement and superior fit. Technical fabrics are engineered to be ultra-lightweight and stretchable, while also delivering superior airflow thanks to the highly breathable stretch mesh zones on the upper back and under the arms. Flat stretch seam construction on arms, back, and torso for enhanced range of movement and comfort. Seamless bonded collar, hem, and sleeves for enhanced driver comfort. Sublimated and digital print fade-resistant logos.

SUPERTECH K SHOES FIA

NEW ITEM

KARTING

SIZE: EUR 37-47 / US 5-13

DESCRIPTION

The Supertech K Shoe boasts a new, fully knitted upper construction which is designed to deliver the closest and most comfortable fit, adapting to the morphology of the feet even more, and resulting in improved comfort in the cockpit and reduced driver fatigue.

The ultra-lightweight Supertech Shoes feature a TPU heel cup for a secure heel lockdown and holding the foot firmly in place. The shoes have a molded midsole, which allows increased cushioning while providing maximum stability. The memory foam heel padding reduces vibrations from being transmitted to the heel and reduces discomfort, whilst the ultra-thin rubber outsole gives the driving feel required for maximum performance.

It can also be worn with stretch laces to avoid the need to tie or untie the shoes, these come supplied in the box.

KEY FEATURES

Ultra-lightweight, knitted upper offers superior driver comfort in forefoot.

Thermo-formed carbon heel cup provides secure heel lockdown.

Molded midsole offers premium soft cushioning, whilst retaining maximum stability.

CONSTRUCTION

Ultra-lightweight racing shoe featuring a fully knitted upper, made from a blend of fibers to offer drivers unsurpassed comfort, and breathability, as well as a precise and secure fit around the foot.

Engineered stretch tongue zone and ankle collar area for optimum fit, with rear pull tab for ease of entry while putting on the shoe.

Upper overlay skin for durability and support while providing flex points for comfort when walking.

Thermo-formed TPU fiber heel cup provides secure heel lockdown.

Molded midsole allows for cushioning with maximum stability.

Redesigned F1-derived ultra-thin rubber outsole delivers greater feel, improved sensitivity with the pedals, and optimum levels of grip.

The textured rubber outer sole has an asymmetric tread and is water repelling and oil resistant to offer high levels of grip.

Lightweight memory padding around the heel reduces vibrations being transmitted to the heel bone, while the seamless Achilles zone construction provides enhanced driver comfort.

Lightweight flat lacing ensures secure fit and reduces pressure points.

Stretch laces supplied. Comes supplied with a pair of "stretch" laces included in the box. These can be fitted and cut to length, to wear the shoes without tying and untying the laces each time.

TECH-1 KX V3 SHOES FIA

KARTING

SIZE: EUR 34-47 / US 2.5-13

Bringing Formula 1-derived features, along with specific innovations for the kart track, the new Tech-1 KX V3 Shoe is now lighter and more breathable with a revised asymmetric lacing system to conform more closely to the foot. The use of thin PU film adds durability whilst reducing seam construction and pressure points. Laser cut air-intakes and perforations on upper, with 3D mesh on tongue provide excellent breathability and comfort.

The TECH-1 KX V3 Shoe has an advanced, seamless thermo-welded construction consisting of ultra-thin PU film and textile to provide supremely lightweight performance and excellent comfort and fit.

Laser cut air-intakes and perforations on toe and both sides for added breathability.

First shoes homologated to new FIA karting standard.

Advanced seamless thermo-welded construction

consists of ultra-thin PU film and 3D mesh to provide supremely lightweight performance and excellent comfort and fit.

Sleek shoe profile conforms to the anatomy of the foot and ensures great fit and performance.

Laser-cut air-intakes and perforations on upper, with 3D mesh on tongue provide excellent breathability and comfort.

External heel, ankle and internal toe reinforcements for abrasion resistance and protection.

Dual, asymmetric closure system incorporates adjustable strap, and an aramidic, speed lacing system in the instep with Alpinestars' exclusive wire closure system that offers optimal support, precise fit, and a secure closure.

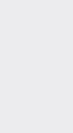

New super-light tongue construction combining micro suede and 3D mesh, provides excellent breathability and superior comfort.

TECH-1 K V2 SHOES

KARTING

SIZE: EUR 34-47 / US 2.5-13

The Tech-1K v2 Shoe is ultra-lightweight shoe, optimized for maximum airflow and breathability. With its contoured shape, the shoe is more proportioned to better adapt to the morphology of the feet, thereby improving comfort in the cockpit and reducing driver fatigue. There is also an ergonomic foot bed to ensure the foot maintains a natural, comfortable posture while also allowing maximum flexibility, support and free foot movement.

Advanced hybrid construction consisting of durable Nubuck microfiber upper and strategically positioned perforated microfiber areas to ensure light weight, excellent breathability and superior feel. The external toe reinforcement is constructed using

3D rubber print for superior abrasion resistance and protection. The dual and asymmetric closure system incorporates an adjustable hook and loop strap plus a traditional lace loop system coupled with a para-aramidic eyelets system for enhanced durability, as well as a more personalized fit and a secure closure.

The new superlight tongue is constructed from a combination of perforated microfiber and mesh giving for optimum breathability and airflow and superior feeling.

Strategically-positioned perforation zones on lateral and medial sides and toe for giving breathability. The collar is cut lower at the rear to allow for greater Achilles' heel comfort and an improved range of movement.

Alpinestars innovative foot counter is engineered for maximum performance: an ergonomic, polypropylene heel counter provides support and stability inside the shoe, while a flatter forefoot with die-cut ribbing provides greater feel with the pedals.

The ultra-thin Formula 1 specification sole uses Alpinestars exclusive rubber compound which is strategically ribbed for enhanced pedal sensitivity and grip in both wet and dry conditions.

External rear heel rubber for improved abrasion resistance and protection.

Integrated PU heel for additional driver comfort.

TECH-1 K START V2 SHOES

KARTING

SIZE: EUR 34-48 / US 2.5-14

With a newly designed forefoot profile, Achilles-friendly collar design, breathable laser perforations and reinforced external heel, the Tech-1 K Start shoe is constructed from durable and lightweight microfiber for optimized levels of protection, comfort and performance fit.

Designed and developed specifically for the stresses of kart racing.

Main upper constructed from durable microfiber for lightweight performance, comfort and abrasion resistance. Integrated construction consisting of per-

forated microfiber and soft inner lining for high levels of comfort and breathability.

New sleek shoe profile follows foot anatomy and guarantees great fit and performance.

Strategically positioned perforation zones for enhanced cooling performance and maximized airflow. Collar padding constructed from Nitrile rubber for comfort and weight-saving.

Traditional symmetric lacing system for personalized fit and secure closure.

All graphic elements are printed for excellent weight-saving.

Lightweight micro-porous padding around the heel and insole enhances comfort.

Alpinestars foot counter features multi-compound construction ergonomic polypropylene heel counter, which provides support, protection and stability plus an integrated PU fireproof heel for comfort.

Lightweight rubber compound sole with textured grip and improved pedal feel in race conditions.

External heel real rubber for improved abrasion resistance and protection.

TECH-1 K S SHOES

YOUTH KARTING

SIZE: EUR 30-32 / US 2.5-13

With a newly designed forefoot profile, Achilles-friendly collar design, breathable laser perforations and reinforced external heel, the Tech-1 K Start shoe is constructed from durable and lightweight microfiber for optimized levels of protection, comfort and performance fit.

Designed and developed specifically for the stresses of kart racing.

Main upper constructed from durable microfiber for lightweight performance, comfort and abrasion resistance.

Integrated construction consisting of perforated mi-

crofiber and soft inner lining for high levels of comfort and breathability.

New sleek shoe profile follows foot anatomy and guarantees great fit and performance.

AK-1 KART BODY PROTECTOR

PROTECTION

SIZE: 2XS/XS - S/M - L/XL (YOUTH: S/M - L/XL)

The AK-1 Kart Body Protector is a high-performance and race-oriented FIA STANDARD 8870-2018 homologated karting body protector. Ergonomically designed and constructed with weight-saving materials to ensure a superb fit. Super easy to wear as well as put on or remove due its clever use of a speed-lace closure system and dual adjustable elastic shoulder straps. The AK-1 Kart Body Protector offers superior protection while being super light and comfortable to wear.

Rib Protectors: Rib protectors are constructed from a carbon fiber thermoset material backed by a soft touch comfort padding. Pre-curved to offer a snug fit without obstructing movement.

Chest Protector: Chest protector made from a high-performance thermoplastic polymer backed with a thermoformed padding. Ergonomically profiled for a superb fit.

Back Protector: Back protector made from a high-performance thermoplastic polymer backed with a thermoformed padding. Designed to minimize the distance between the seat and back.

Innovative Speed-Lace Closure System & Straps

Extremely easy to put on due to the speed-lace system. Adjustable elastic shoulder straps.

Available in a Youth version.

META ROAD V2 SHOES

SIZE: EUR 37.5-49 / US 4.5-13.5

Designed for all-day comfort and occasional running on any type of ground or terrain, the Meta Road v2 Shoe is engineered to be supremely durable, lightweight, and highly breathable. With every component optimized to create a shoe capable of being worn all day, whether walking, kneeling or standing, on all types of ground surfaces, the Meta Road v2 is the ideal shoe for race-team workwear.

Lightweight and breathable mesh upper engineered for optimized airflow.
Seamless microfiber chassis construction for en-

hanced durability and structural integrity. Lacing system includes a webbing eyelet tuning system running around the instep, creating a light chassis closure for a precise and comfortable fit, while also delivering enhanced foot stability.

Easy to slip-on design with large toe box that allows the toes to spread when kneeling for superior levels of comfort.

Elevated cushioning performance: the EVA insert located in the main midsole beneath the heel provides a long lasting softness for enhanced comfort. High-grip, oil-resistant rubber sole provides superior

grip on dirty surfaces. Removable OrthoLite® inner sock provides high breathability, which reduces overheating while also delivering high durability.

Lightweight minimal construction with an elastic gusset at the tongue for a 'glove' like fit. Internal heel counter and toe box layered under the upper for structural integrity and support.

Engineered to stay cleaner for longer.

META XR v2 SHOES

SIZE US: 4.5-13.5 / EUR: 37.5-49

DESCRIPTION
Anatomically engineered and optimized for all-day comfort and occasional off-road running use, the Meta XR v2 features a sport casual shoe design with a single-piece mesh upper for minimal build material construction and high levels of airflow, ventilation and breathability. The rugged rubber sole also features a dedicated design for superior grip on dirty surfaces and is oil-resistant for optimized levels of performance.

KEY FEATURES
Engineered to deliver exceptional all-day comfort, on all kinds and types of terrain. The sole is anatomically optimized to offer high levels of comfort, support and cushioning, making it ideal for occasional off-road running use. Lightweight minimal construction with a slim textile and soft TPU tongue ensures a glove-like fit, enhancing foot stability and protection. A snug midsole wall offers optimal stability and comfort, while a resilient EVA insert under the heel provides lasting softness.

The removable OrthoLite® insole, made with an open cell PU compound, ensures high breathability, reduces overheating, and enhances overall comfort and durability.

Engineered with technical mesh in a strategically positioned perforated area, the Meta XR V2s offer sole beneath the heel delivers long-lasting softness. Equipped with a removable OrthoLite® in sock with an open cell PU compound for high levels of breathability and superb overall comfort, while also reducing overheating and delivering exceptional durability.

exceptional breathability and airflow. Flexible elastic laces allow the shoe to be precisely secured while providing an amount of movement when worn for optimal levels of comfort, even when running.

A large toe box allows the toes to spread when kneeling for greater levels of comfort, making this the footwear of choice for teams and mechanics. Internal heel counter and toe box are layered under the upper for structural integrity and support.

A soft rear collar in elastic textile with rear webbing makes the shoes easy to get on and off, while still being supportive enough to deliver exceptional all-day comfort.

PROTECTION
Strategically poisoned TPU reinforcements on the tip of the toes provides the shoe with more structure and stability, while also offering additional and abrasion resistance.

A TPR back insert delivers impact protection for the heel while also increasing stability.

SIM GLOVES GRAPHIC 3

GAMING

SIZE: XS - XL

DESCRIPTION

Designed and developed specifically for Sim racing requirements with leading drivers in this fast growing online racing world. These gloves offer unsurpassed feel and comfort through advanced, lightweight and breathable materials, allowing you to take your Sim racing to the next level.

KEY FEATURES

Lightweight bonded stretch material main construction for maximum fit, comfort and driving feel.

Large perforations on back of the hand and carefully placed perforations on base of palm and fingers, allow maximum breathability with sweating directly against the rubber grip of the steering wheel.

Ultra-soft Nanofront palm fabric gives incredible feel and fit whilst the 3D print on the palm ensures just the right amount of grip.

Smooth touch screen on thumb and first two fingers allows for pinch control on a phone or tablet screen and two finger scrolling on a touchpad.

Soft Lycra forchettes offer a super slim fit in the fingers to allow typing on a keyboard and no excess material.

Short, shaped cuff with welded hem to keep you cool, and debossed logo inner pull cuff ensure it is easy to take the gloves on and off during gaming.

TECH GAMING SHOES

NEW
ITEM

GAMING

SIZE: EUR 37-47 / US 5-13

DESCRIPTION

The Tech Gaming Shoe has been developed with leading Sim racing drivers to give the perfect balance between the stability of a race shoe and the comfort and feel of a sock. The fully knitted upper construction delivers the closest and most comfortable fit, adapting to the morphology of the feet even more, whilst the ultra-thin rubber outsole gives the driving feel required for maximum performance.

KEY FEATURES

Ultra-lightweight Sim racing shoe featuring a fully knitted, stretch upper to offer drivers unsurpassed comfort and breathability. Engineered stretch tongue zone and ankle collar area for optimum fit, with rear pull tab for ease of entry while slipping on the shoe. Redesigned F1-derived ultra-thin rubber outsole delivers greater feel, improved sensitivity with the pedals, and optimum levels of grip. The textured rubber outer sole has just the right level

of grip on the pedal to allow the foot to slide up the pedal as you release pressure. Embroidered Alpinestars logos and border highlight give F1 inspired styling.

HOW TO MEASURE

A. Chest - Measure around the fullest part, under the armpits, keeping the tape horizontal.
 B. Waist - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
 C. Hip - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
 D. Thigh - Measure around the thigh just below the crotch, keeping the tape horizontal.
 E. Inseam - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
 F. Arm Length - Measure from shoulder (Humerus) to wrist.
 G. Height - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.
