ZN LINK

- Replaceable cables – high modularity
- Mechanical issues easily fixable
- IP67 connectors
- Service cables included with the control unit
- Driver/co-driver cables available as options

CLEARVOICE DIGITAL AUDIO

- Enhanced digital audio
- Signal stability
- Low latency
- Dynamic algorithm for voice isolation

IP CERTIFICATION

- IP67 connectors
- IP-rated control units
- Robust design
- Product range specifically designed for off-road use

ZN APP

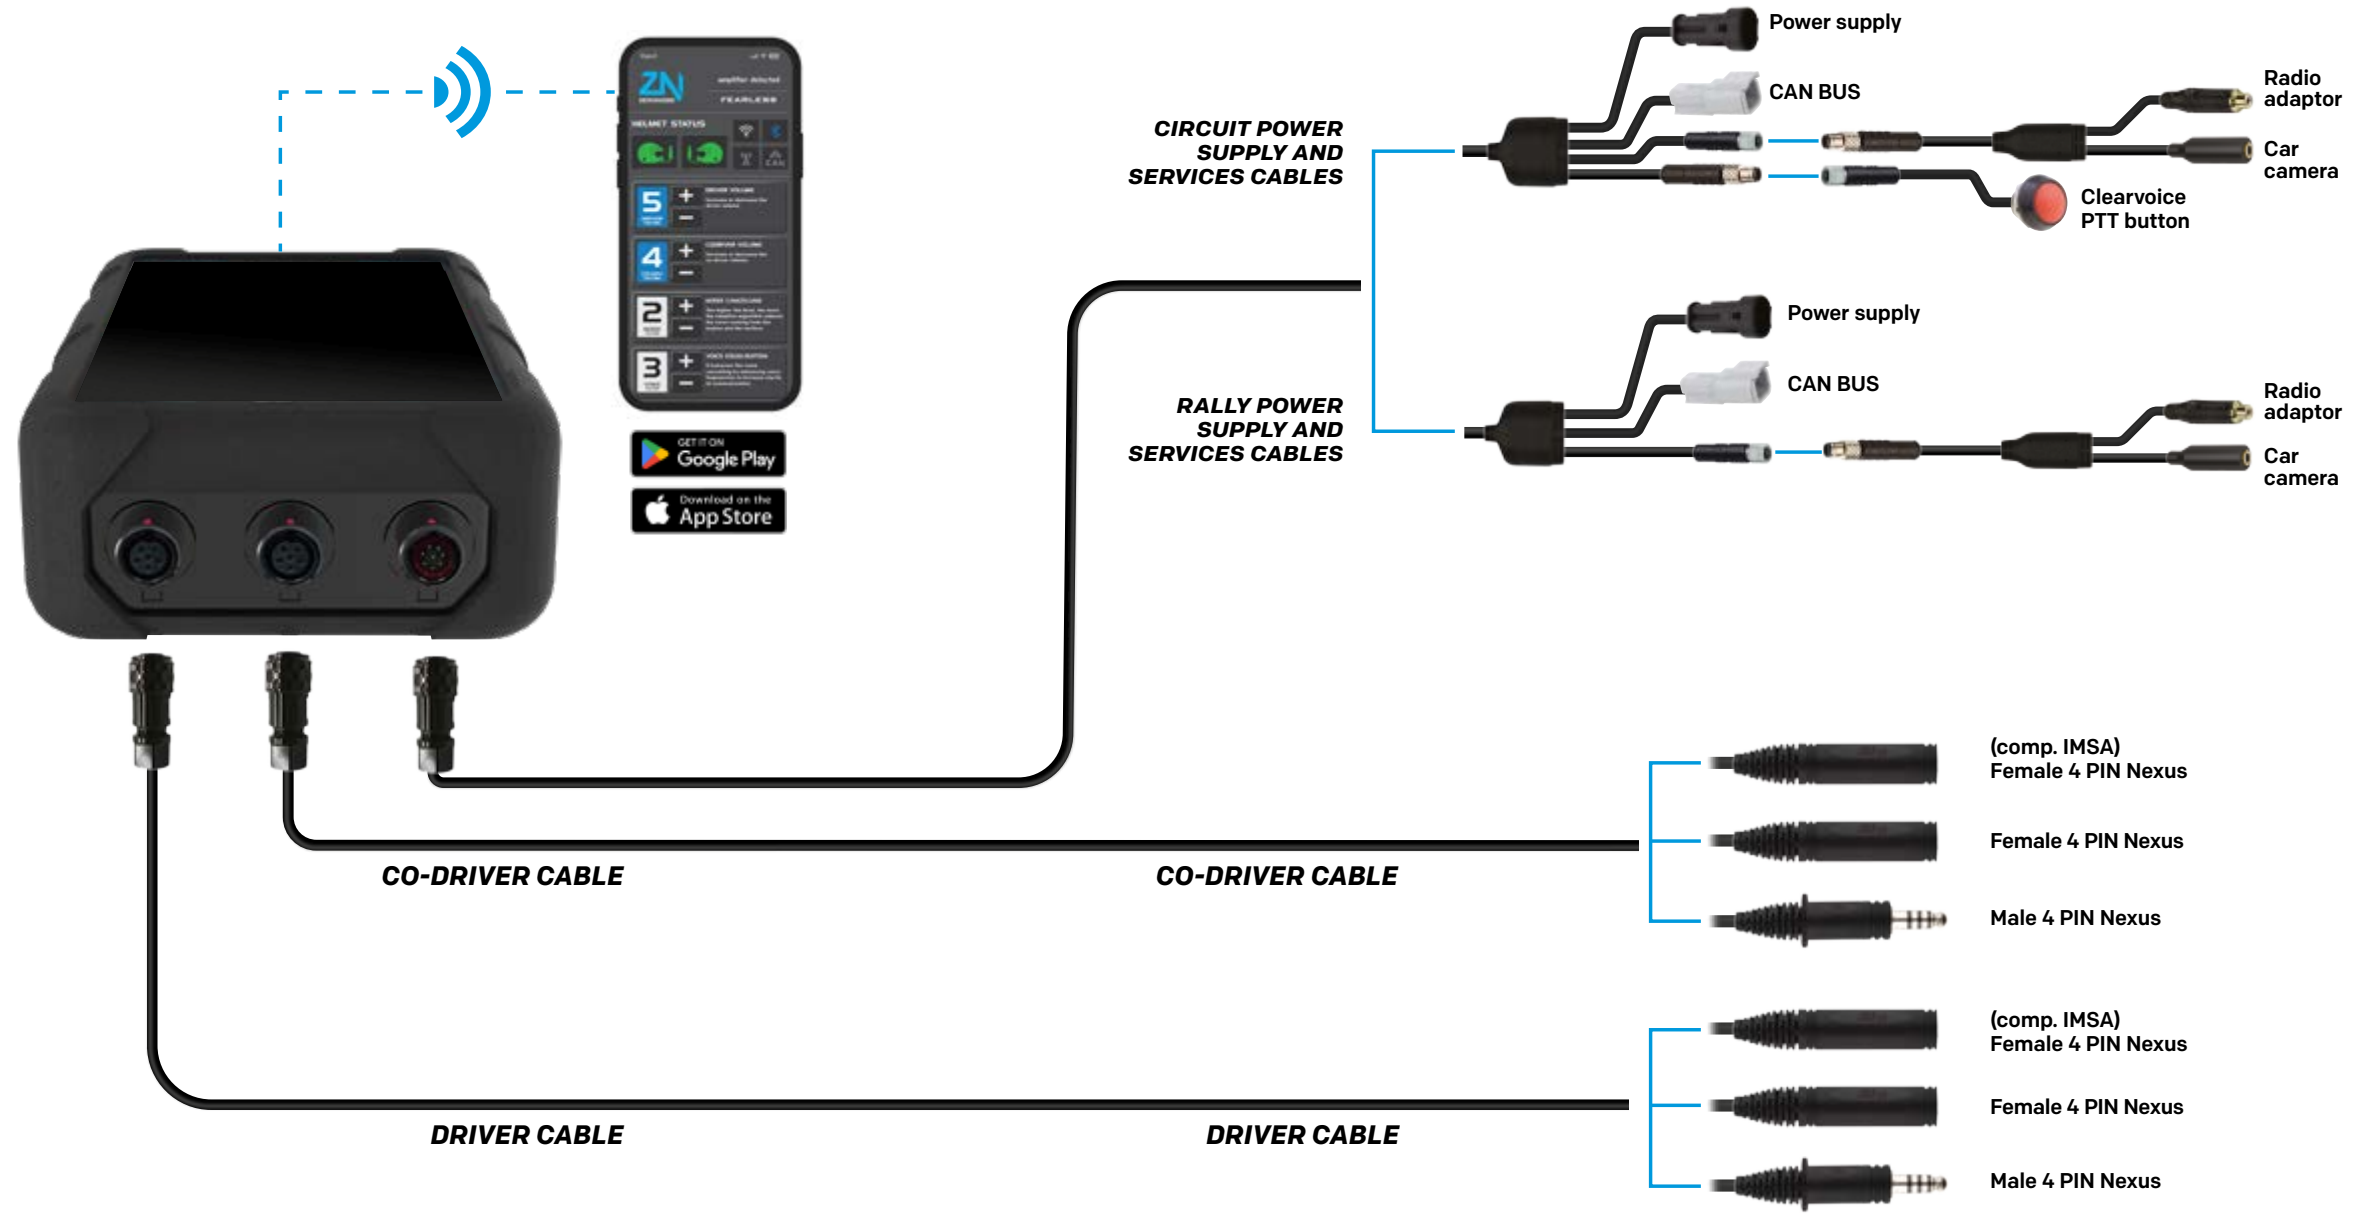

- Full Control from mobile or tablet device.
- Wireless Connection
- Robust communication protocol
- User-Friendly Interface

INTERCOM UPDATE

- OTA (Over-The-Air Update)
- Wi-Fi connectivity
- Reduced Maintenance Time
- ZN App Compatibility

CAN-BUS INTERFACE

- Centralized Control
- Guaranteed Compatibility
- Advanced Customization
- Easy Integration

The Wired-Wireless (WW) System enables communication between driver and co-driver both in Wired and Wireless mode. When the helmet IS connected to the amplifier via cable, the communication works traditionally, also keeping compatibility with any Nexus communication system. When the helmet IS NOT connected to the amplifier via cable, the system switches automatically to the wireless mode with no interruption whatsoever.

COMPONENTS

- WW Zeronoise Fearless Amplifier
- WW Bell Helmet radio kits / Helmet radio kits produced by other manufacturers
- WW Zeronoise Headsets / Headsets produced by other manufacturers
- Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)

FEARLESS WIRED WIRELESS

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100049

€ 885,00 (Z)

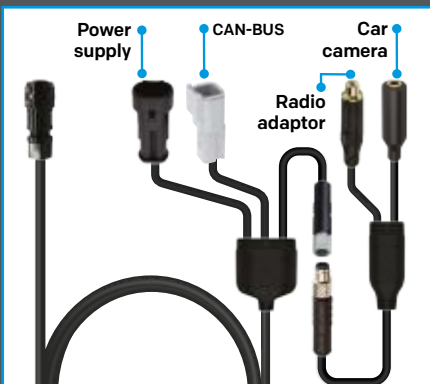

The Fearless Wired Wireless Amplifier is a fully re-engineered communication system built for durability and performance in rally and off-road conditions. It allows to switch seamlessly from Wired to a super low latency Wireless communication inside and outside the car. Rated IP65 for dust and moisture protection, it features a silicone keyboard, IP67 panel-mounted connectors, and a 36% larger display for improved usability. The ClearVoice™ technology ensures clear communication in harsh environments through voice isolation algorithms. Combining wired and wireless military-grade encrypted connectivity, it works seamlessly with Bell Mag-10 Rally Carbon WW and HP10 Rally helmets.

FEATURES

- WIRED and WIRELESS communication
- Clearvoice(TM) technology with adaptive noise cancelling and voice isolation
- Multifunction touch display
- Bluetooth
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet

INCLUDED IN THE BOX

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- CAN-BUS

HEADSET WIRED WIRELESS

HEADSET FOR RALLY USE

6100009

€ 440,00 (Z)

ZERONOISE WW HEADSET provides high hearing protection while being comfortable and lightweight. It integrates the WW technology, therefore it works both in Wired and Wireless mode. The high efficiency speakers are suitable for a conversation or listening to music. It also features a dynamic noise cancelling microphone and an adjustable flex boom.

It is fully compatible with all ZERONOISE AMPLIFIERS.

FEATURES

- Integrated WW technology
- High efficiency speakers for music or voice
- Dynamic noise cancelling microphone Flex boom to adjust microphone
- High hearing protection
- Soft adjustable headband
- Optional cable available only Female 4 PIN Nexus version

6300036 € 205,00 (Z)

Spare radio helmet kit with earcups and microphone suitable for HP10 WW and MAG-10 RALLY CARBON WW

A Rally communication system is a high-performance intercom designed for extreme motorsport conditions, enabling crystal-clear interaction between driver and co-driver. Built with advanced noise-cancellation algorithms, it isolates and enhances the voice and it eliminates engine roar and road vibrations. Zeronoise systems integrate digital processors, adaptive noise cancelling and voice isolation, and the possibility to set easily audio parameters. IP-rated housings ensure durability against dust, water, and shocks, while wireless and wired options deliver seamless, encrypted connectivity.

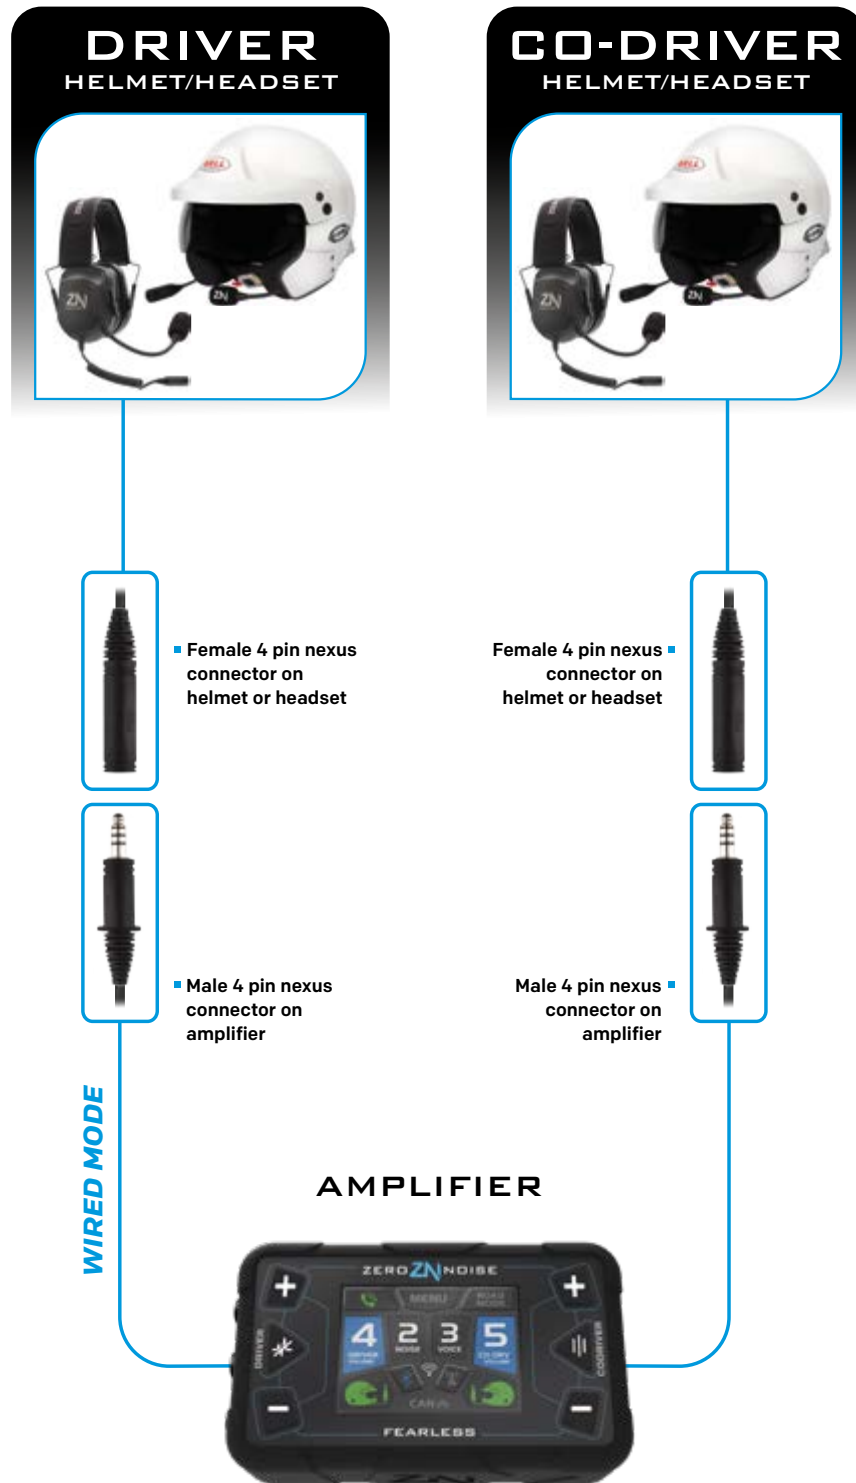

The intercoms also allow multiple connectivity options such as Bluetooth, Radio, Can-bus, and wi-fi to enable a full integration in every autoracing environment.

Zeronoise systems transform chaotic rally environments into zones of flawless communication—boosting speed, safety, and competitive edge.

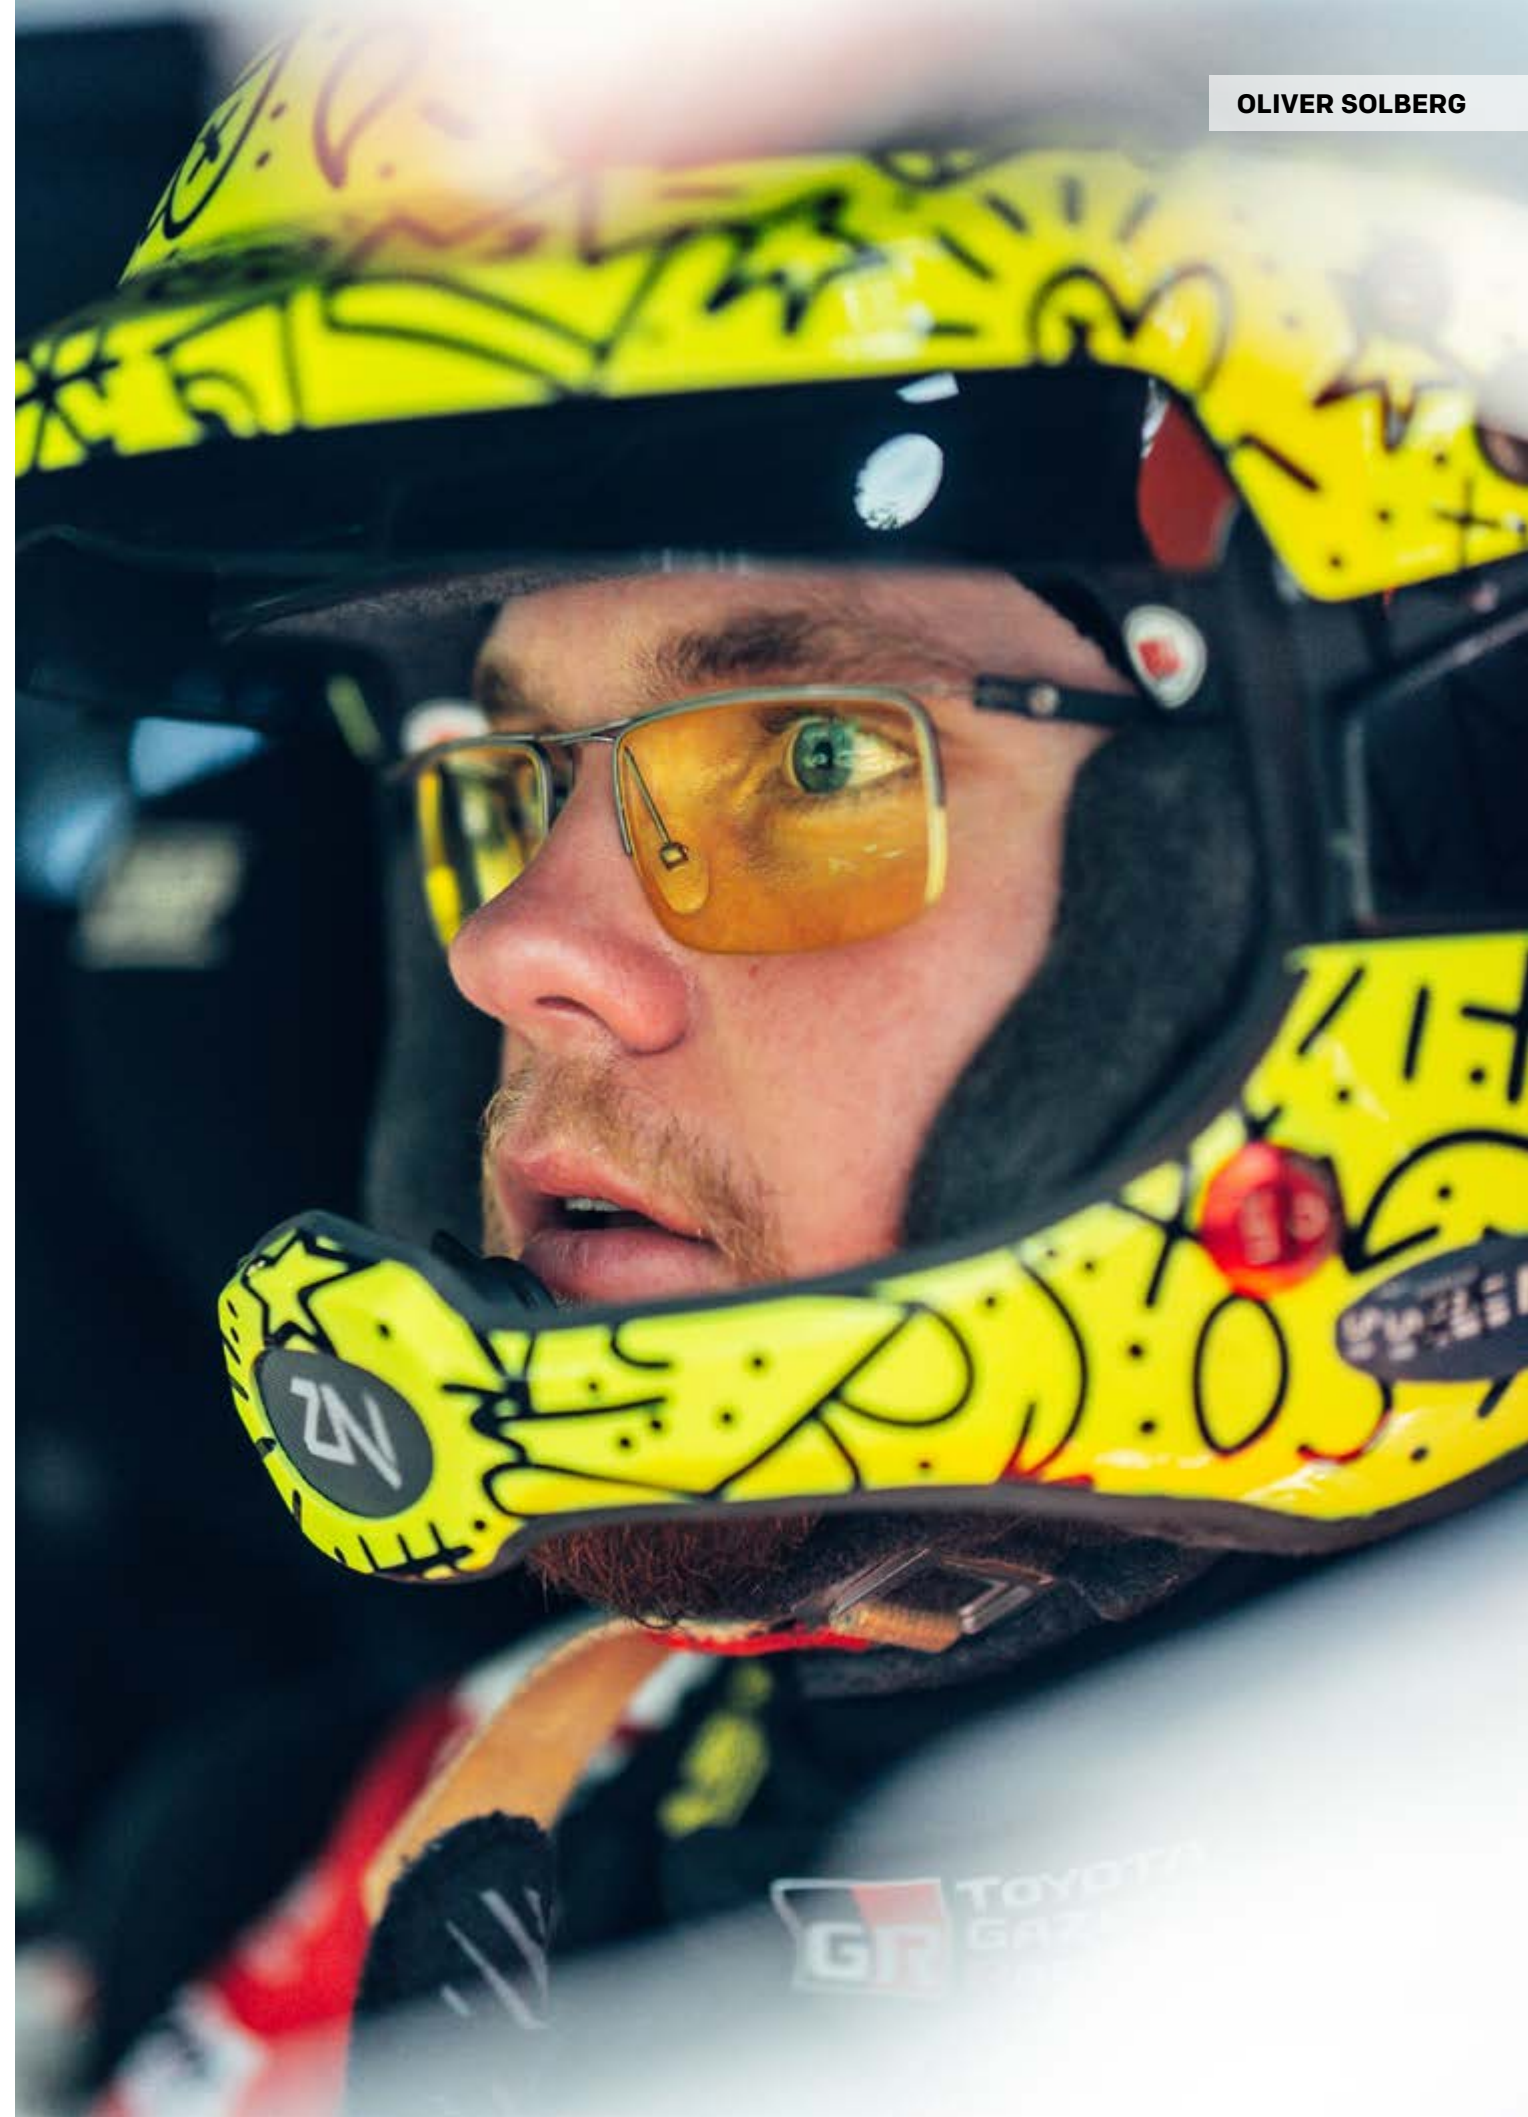

COMPONENTS

- Amplifiers
- Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)
- Helmet radio kits
- Headsets

FEARLESS

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100046

€ 425,00 (Z)

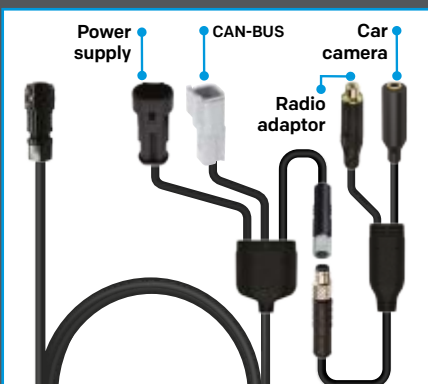

The FEARLESS Digital Amplifier has been completely re-engineered to a rugged, IP65-rated device designed for motorsport environments, offering superior dust and water protection. It features a 36% larger display for better visibility, a silicone keyboard for reliable tactile feedback, and panel-mounted Nexus connectors for enhanced durability. Powered by a digital processor with ClearVoice™ technology, it reduces background noise and it isolates the voice. Users can adjust audio settings and fine-tune parameters remotely via the ZeroNoise App. It is compatible with Bell helmets, ZeroNoise headsets, and other Nexus-based systems.

FEATURES

- Clearvoice(TM) technology with adaptive noise cancelling and voice isolation
- Multifunction touch display (It works with gloves)
- Bluetooth
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet

INCLUDED IN THE BOX

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- CAN-BUS

FEARLESS

WRC CAN-BUS

PRO DIGITAL AMPLIFIER FOR RALLY USE

180 x 140 x 45 mm

6100036

€ 1.250,00 (Z)

FEARLESS WRC Can-Bus is a professional solution for the most demanding teams and drivers. The intercom features two units inside the box for full reliability, the second being a back up unit that exactly replicates the first one. The Can-bus interface provides full accessibility to the intercoms commands on the dashboard of the car, therefore FEARLESS WRC Can-Bus can be placed anywhere in the car where it is more convenient. The audio performance is the one of the Fearless standard and it integrates Clearvoice™ technology for noise cancelling and voice isolation and enhancement. On the outside, there are Deutsch connectors to ensure compliance to a motorsport standard.

NEXUS CONNECTOR

Cable to driver (2m)

Cable to co-driver (2m)

12V cable to car battery + Audio out for car camera + Audio in for radio + CAN-BUS

DRIVER/CO-DRIVER CABLE NOT INCLUDED WITH AMPLIFIER

6100037 € 460,00 (Z)

Wires and Deutsch connectors from the Fearless WRC CanBus amplifier to the car.

FURY OFFROAD

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100045

€ 275,00 (Z)

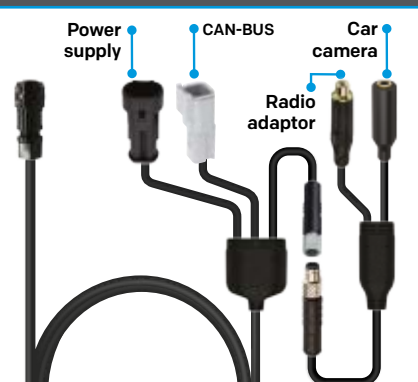

FURY combines the digital sound quality with the simplicity of use. It integrates Clearvoice™ technology for voice isolation in a simple ready-to-use package that has been upgraded with IP protection from water and dust for Offroad use. The four pre-set buttons had been carefully designed to refine the sound in any condition. They both work independently or combined. TERRAIN: The noise cancelling algorithm focusses on the noises coming from the road surface. BOOST: It enhances the voice volume output for the most demanding drivers. ENGINE: This pre-set is effective on the noises coming from the engine. ROAD/STAGE: Stage mode turns off the radio output, so the communication is solely between drive and co-driver for maximum focus.

FEATURES

- Clearvoice(TM) technology with adaptive noise cancelling and voice isolation
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- Remote firmware upgrades via Wi-Fi
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet
- Sound presets for terrain and engine noise
- Boost function for clearer voice levels

INCLUDED IN THE BOX

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- CAN-BUS

FEARLESS OFFROAD

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100047

€ 505,00 (Z)

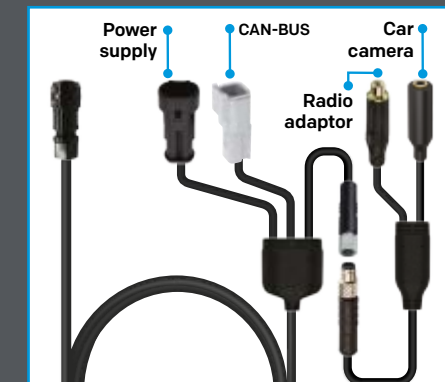

The FEARLESS OFFROAD amplifier includes all the features of the standard Fearless with enhanced water and dust resistance for use in demanding environments. It does not include Bluetooth, or any external connectivity as these features had been disabled at the factory to meet specific regulations. Each unit comes with a Factory Certificate to confirm full compliance with the relevant standards.

FEATURES

- Clearvoice(TM) technology with adaptive noise cancelling and voice isolation
- Multifunction touch display (It works with gloves)
- External connectivities disabled by the factory
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system

INCLUDED IN THE BOX

- Audio Out for car camera

FURY

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100038 to 6100040 € 295,00 (Z)

FURY is the digital amplifier that makes the incomparable quality of Zeronoise adaptive noise cancelling available to all drivers. FURY combines the digital sound quality with the simplicity of use. The four pre-set buttons had been carefully designed to refine the sound in any condition. They both work independently or combined.

TERRAIN: The noise cancelling algorithm focusses on the noises coming from the road surface.

BOOST: It enhances the voice volume output for the most demanding drivers.

ENGINE: This pre-set is effective on the noises coming from the engine.

ROAD/STAGE: Stage mode turns off the radio output, so the communication is solely between drive and co-driver for maximum focus.

FEATURES

- Adaptive noise cancelling
- Anti shock, anti vibration silicon cover
- Software updates through USB-C port
- Audio Out for car camera
- Audio IN/OUT radio connection
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard
- Available with three different connectors:
 - Male 4 PIN Nexus

COMMUNICATION SYSTEM

The Circuit Systems enable communication between the car and the pit with a standard phone call, through a professional intercom system connected via bluetooth to the smartphone, as well as in-car communication between driver and co-driver/instructor. PIT LINK allows you to connect up to two people in the car, as well as more cars and more people at the pit by using the conference call feature of the smartphone.

COMPONENTS

- Pit link GSM amplifier
- Helmet radio kits
- Headsets for driver or co driver
- Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)
- Pit Link headset for the pit crew
- PTT button for call

- PLEASE READ THE INSTRUCTIONS CAREFULLY BEFORE USING -

PIT-LINK

DIGITAL AMPLIFIER FOR CIRCUIT USE

125 x 70 x 35 mm

6100048 € 555,00 (Z)

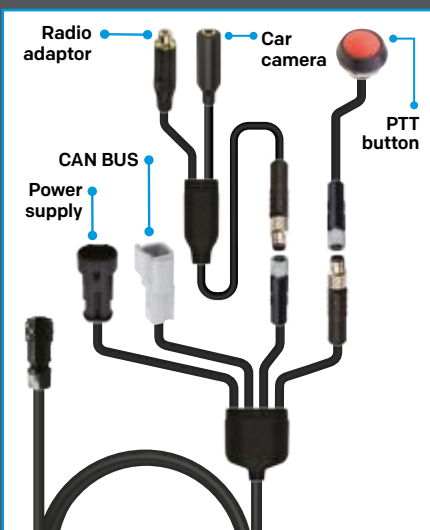

The PIT-LINK Amplifier is a fully redesigned communication system for circuit. The system supports a GSM phone call through Bluetooth connectivity for simultaneous (duplex) car-to-pit communications, activated automatically or via a push-to-talk button. It is the alternative to a traditional VHF/UHF radio with no need of licenses and repeaters. It features a 36% larger display, a silicone keyboard for reliable tactile feedback, and durable panel-mounted connectors. At its core, ClearVoice™ technology isolates and enhances voice clarity, with adjustable settings. Additional features include RCA output for cameras, radio connection, and a 12V power cable.

FEATURES

- Digital active noise filtering
- Multifunction touch display (with gloves)
- Bluetooth as a car-to-pit communication tool
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet

CABLE INCLUDED

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- PTT button
- CAN BUS

PIT-LINK TRAINER is the micro amplifier designed to be the perfect communication tool for karting. PIT-LINK TRAINER is a Bluetooth Digital Amplifier that allows to communicate with the pit during a training session. You can wear it around your neck and keep it inside your suit. The digital noise cancelling makes the communication smooth by reducing the noise around the driver. Communication is automatically on when the phone call is incoming. No need to press anything. The pit crew will connect to the driver through a normal phone call. PIT-LINK TRAINER requires PIT-LINK MICROPHONE KIT and PIT-LINK EARPLUGS to be setup in the helmet.
